

Shang Artefact Study

Choose one of the Shang artefacts you have been learning about to research in more detail. Design and create a poster about the artefact including as much detail as you can. You can include drawings, diagrams, maps or any other information you think is appropriate.

Try to present your work as creatively as you can.

Ideas for information to include:

- Dates
- Where the artefact was found
- Where the artefact is now
- What the artefact is called
- What the artefact was used for
- Who would have used the artefact
- What the artefact is made of
- What the artefact can teach us about Shang culture
- Other examples of the same type of artefact
- Key facts/measurements etc.
