

Order Groups of Objects

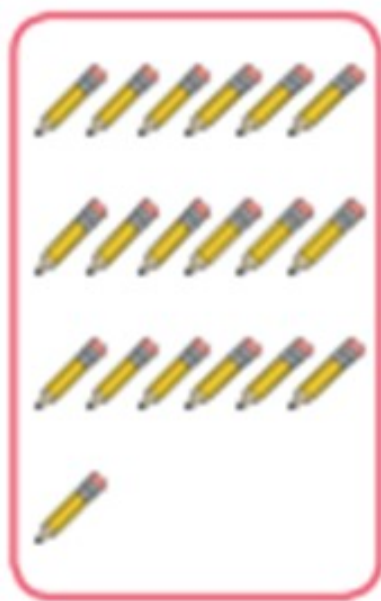

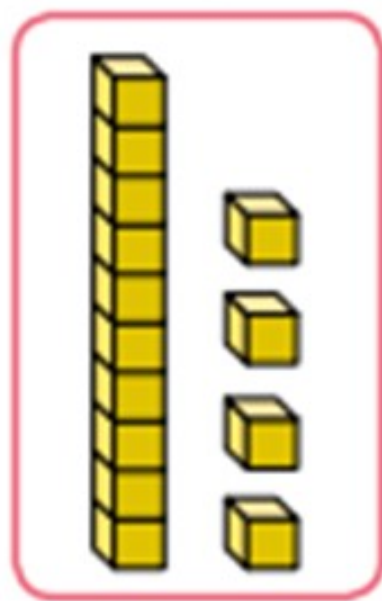

Order these sets of objects from the least to the most.
Write 1 by the least, 2 by the middle amount and
3 by the most.

Order:

These sets have been ordered from least to most.
Draw objects in the middle set to make it correct.

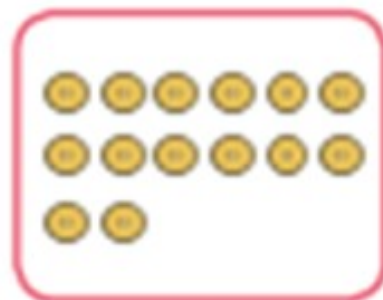

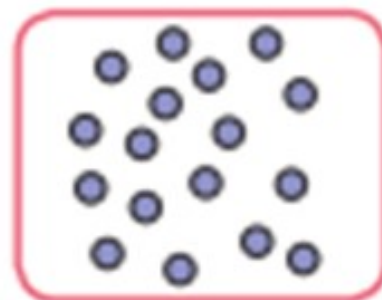

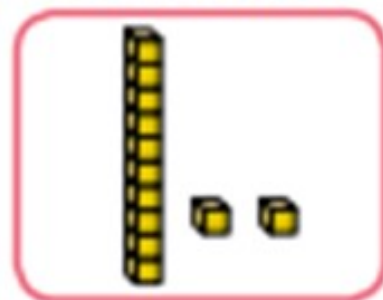

Order Groups of Objects

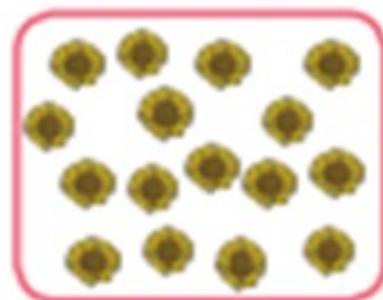

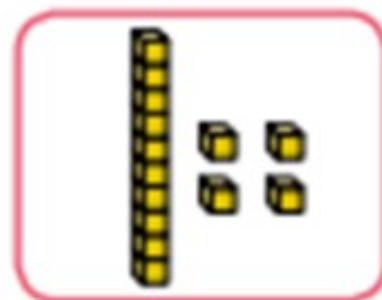

May has been ordering sets of objects. She has made a mistake. Draw a line to show which sets need to be swapped. One has been done.

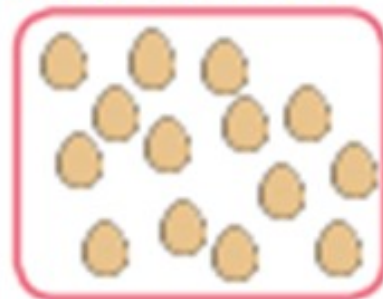

least to most:

most to least:

least to most:

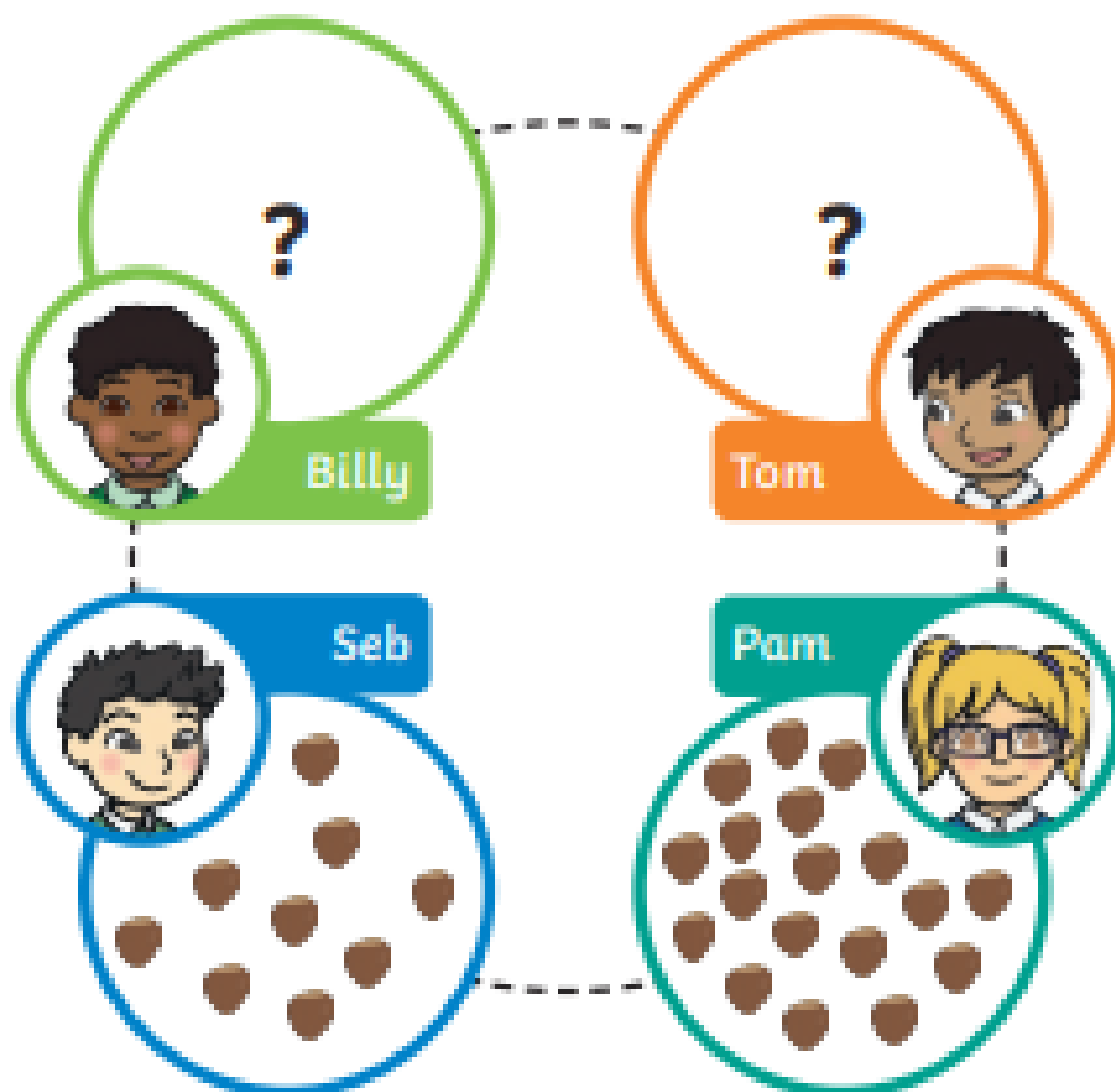

Use objects in the classroom to play a game like this with a friend.

Order Groups of Objects

Four friends have been collecting conkers. Here is what they have collected:

Pam wrote their names in order from who collected the least to who collected the most.

Seb

Billy

Tom

Pam

How many conkers could Billy and Tom have?
