Add Money

WALT:

add amounts of money, using both £ and p in practical contexts.

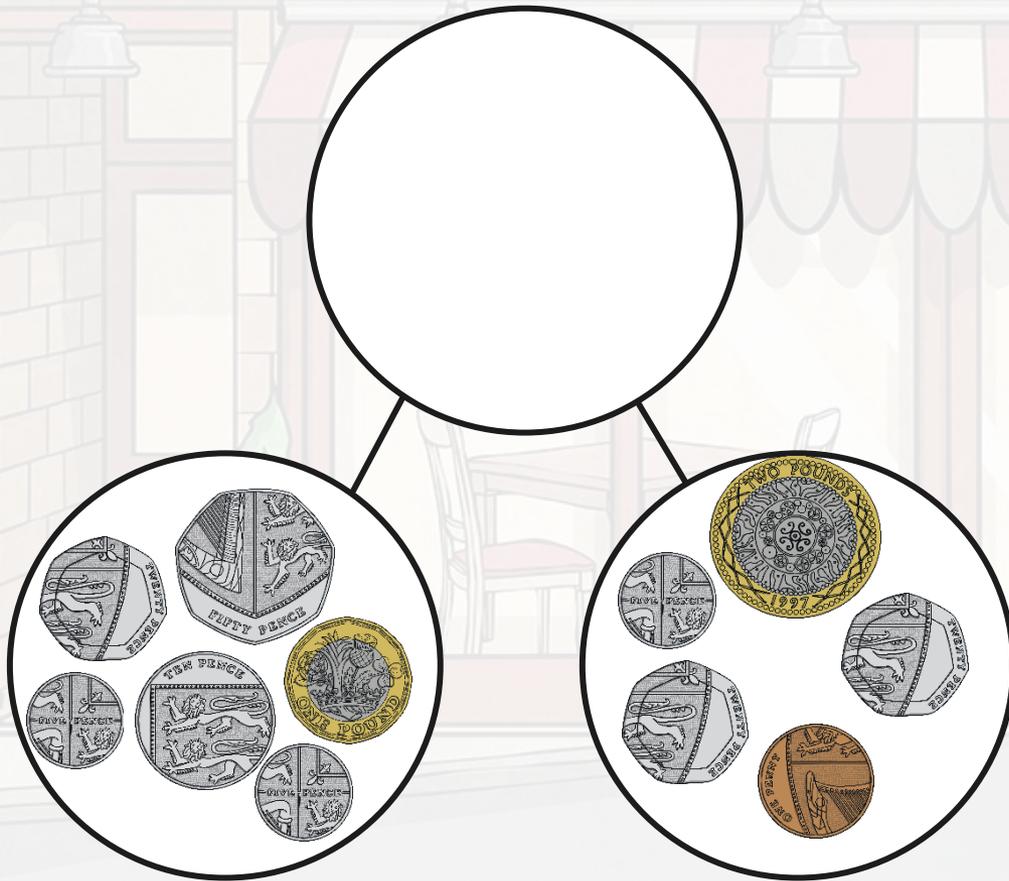

WILF: I can use the addition methods I know to add £ and p. I can compare different amounts of money and tell which is the biggest or smallest.

Here are all the British coins!

How much money is there altogether?

How much money is there altogether?

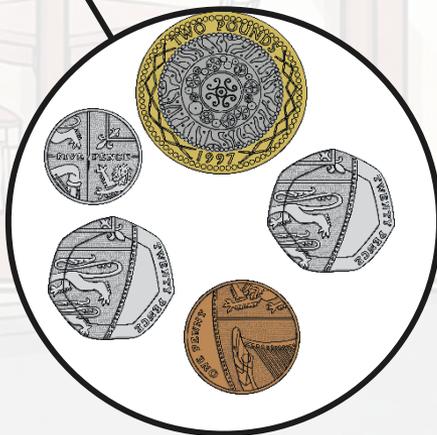

£4 and 36 pence

£1 and 90 pence + £2 and 46 pence

There is £3 and 136p.

136p = £1 and 36p

Altogether there is £4 and 36 pence.

Find the total amount of money.

£1 and 84 pence

My shopping is in
Bag A.

Esme is travelling to the seaside for the day.

Train Ticket Prices	
One-way ticket	£5 and 38 pence
Return ticket	£10 and 65 pence

Do you agree with Esme?

It's cheaper to buy a return than two one-way tickets.

Esme is travelling to the seaside for the day.

Train Ticket Prices	
One-way ticket	£5 and 38 pence
Return ticket	£10 and 65 pence

Do you agree with Esme?

It's cheaper to buy a return than two one-way tickets.

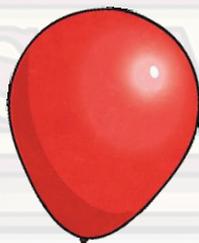

Esme is correct. Two single tickets would cost £10 and 76 pence. This would cost more than paying £10 and 65 pence for a return ticket.
