Thursday 28.1.21

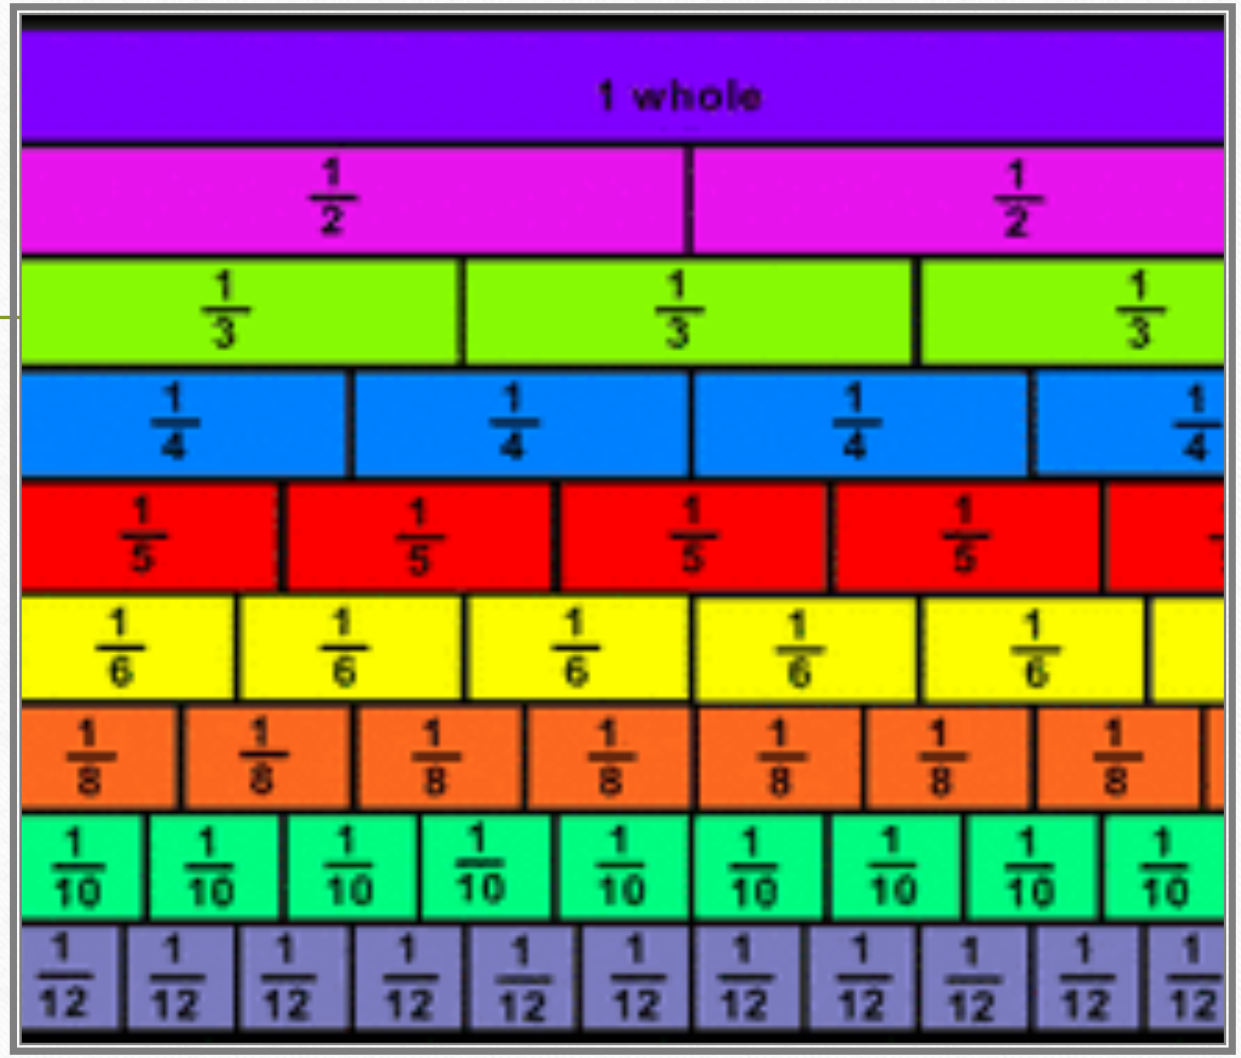
Whilst you are waiting please write out how you might find a fraction of a whole number

WALT: Simplify fractions.

- Write the WALT down in your books and make sure its underlined.

Warm up:

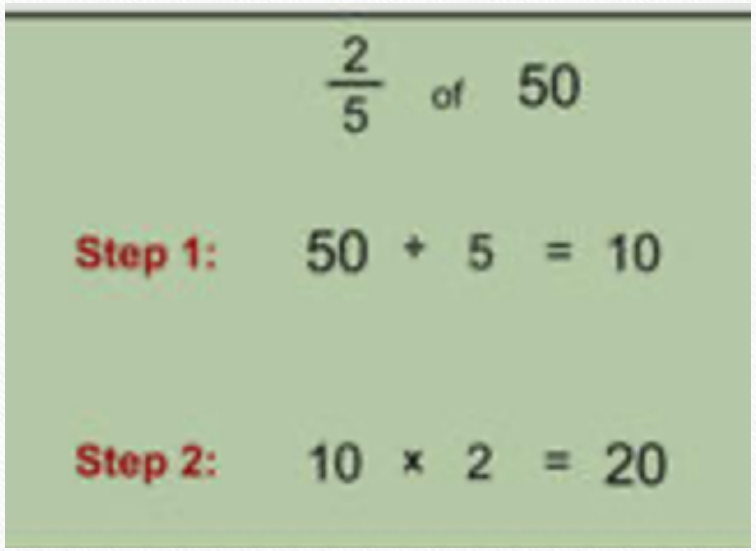
- Draw one way to show me 4/6.
  - Find 1 equivalent fraction for 4/5.

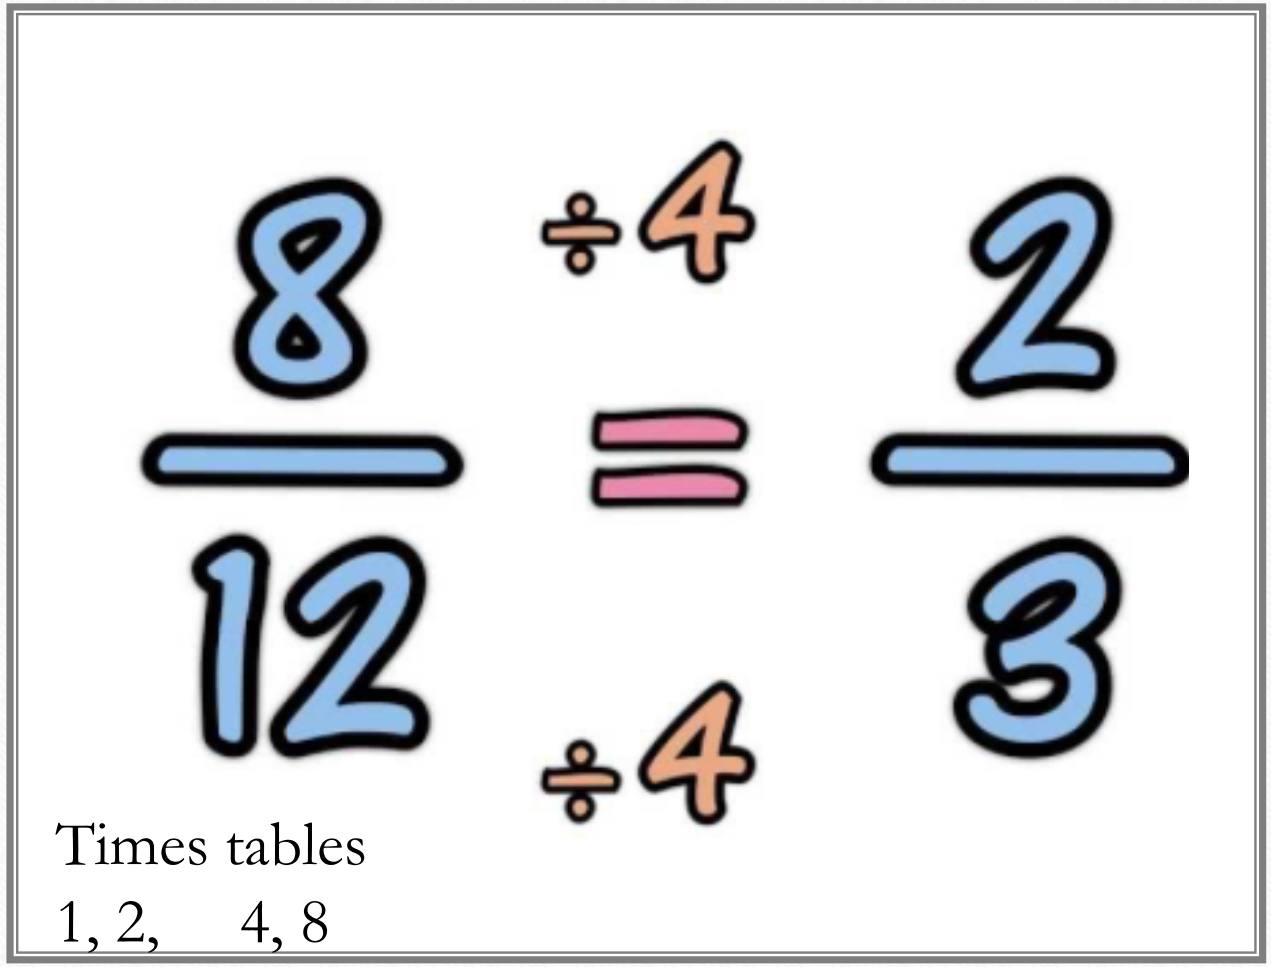


Revision questions

Remember our work from yesterday.

- 1/3 – 1/6 =
- 3/6 + 2/4 =
- 3/5 of 7 =
- 4/6 of 3 =
- 1/6 of 7 =

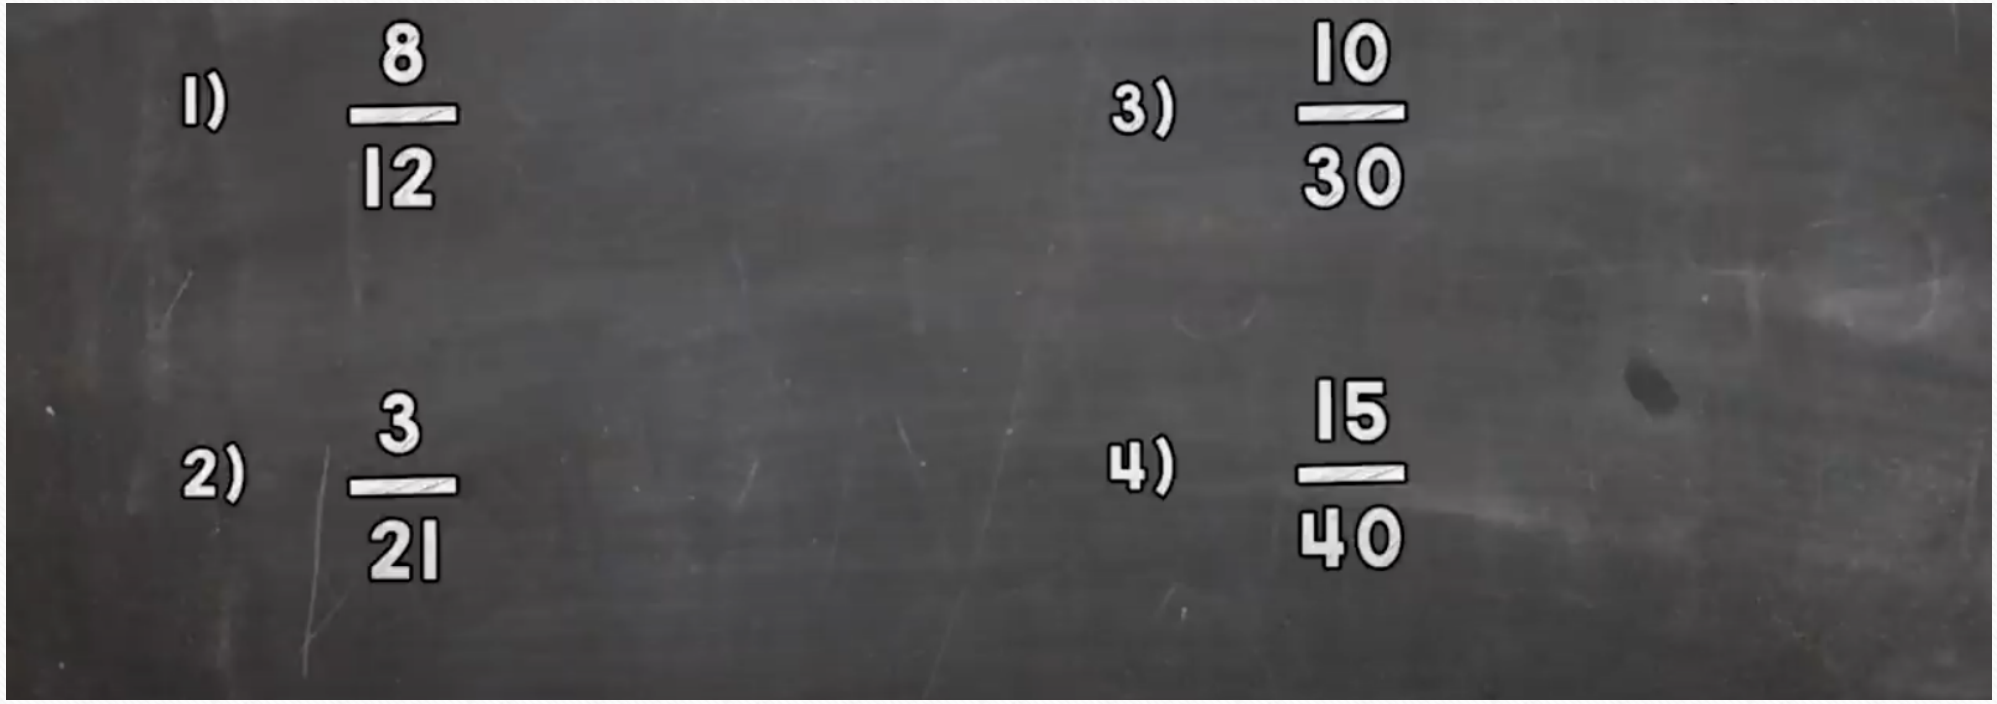




WALT: Simplify fractions.

- Important: in order to simplify a fraction you need to find the highest factor that both the numerator and the denominator have in common and then divide by that number.

Have a go at simplifying these fractions..



Extension questions

- Have a go at simplifying these fractions

1) $\frac{14}{20}$ =

2) $\frac{4}{8}$ =

3) $\frac{9}{12}$ =

4) $\frac{12}{15}$ =

5) $\frac{8}{18}$ =

6) $\frac{14}{21}$ =

7) $\frac{12}{16}$ =

8) $\frac{10}{24}$ =

9) $\frac{15}{35}$ =

10) $\frac{13}{26}$ =
