

1 Sam has 5 balloons.

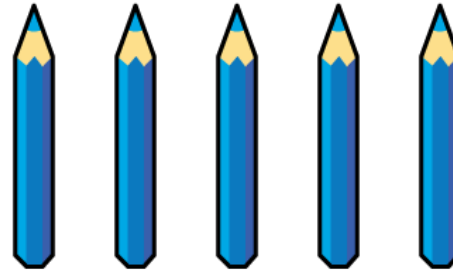

Pat has 3 more than Sam.

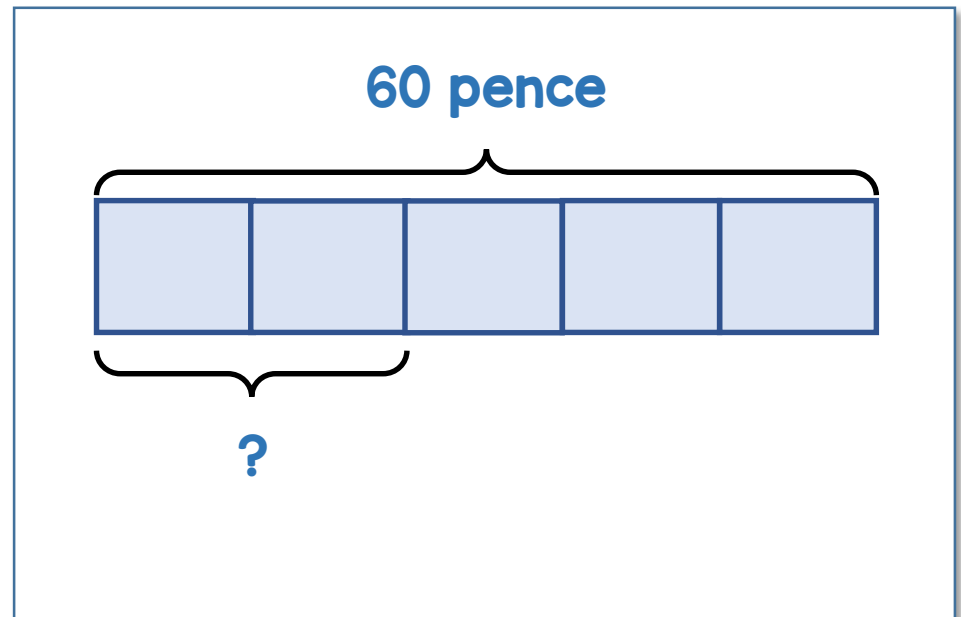

How many balloons do they have in total?

2 5 pencils cost 60 pence.

How much do 2 pencils cost?

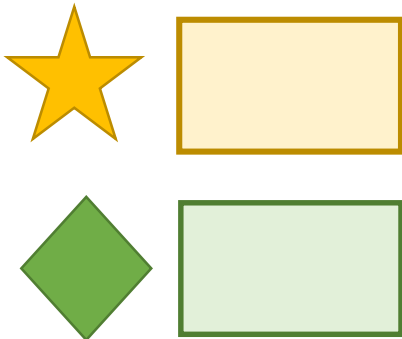

3 Given that

$$\frac{1}{2} \text{ of } \star = \frac{1}{3} \text{ of } \diamond$$

and

$$\star + \diamond = 70$$

Find the value of each symbol.

4 The three angles in a triangle are labelled A, B and C.

Angle B is twice the size of angle A.

Angle C is 40° greater than angle B.

What is the size of angle A?
